Section – 6
SPECIFICATIONS

SPECIFICATION

A set of precise and clear specifications is a pre-requisite for bidders to respond realistically and competitively to the requirements of the Employer without qualifying or conditioning their bids. The specifications must be drafted to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of economy, efficiency, and fairness in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation facilitated. The specifications should require that all goods and materials to be incorporated in the works be new, unused, of the most recent or current models, and incorporate all recent improvements in design and materials unless provided otherwise in the Contract.

For drafting specifications the Employers are advised to use the following standard specifications published by ICTAD .

- | | |
|----------------|---|
| * SCA/3/1 | Irrigation & Land Drainage |
| * SCA/3/2 | Water Supply Sewerage & Storm Water Drainage |
| * SCA/3/3 | Reclamation Works |
